

Pockets of mountain acreage

NEW acreage-sized land lots have been released at the rapidly growing Spring Mountain estate, halfway between Brisbane and the Gold Coast.

The Pocket is the latest land release at Spring Mountain, a signature development of the Motor Trades Association of Australia Superannuation Fund.

Knight Frank's Michael Rozic said the new release had fully fenced home sites between 4000 sq m to 5499 sq m, with town water, underground power and driveway entry to each lot.

Mr Rozic said home sites within the stage were selling from \$220,000.

The Pocket is a secluded section of Spring Mountain, set among leafy landscape in the middle of the estate.

It is suited to families with proximity to primary and secondary schools and only 45 minutes from Brisbane.
